2019 IMPACT REPORT

The Minnesota Indigenous Business Alliance (MNIBA) has always operated as an Indigenous-focused organization, serving emerging entrepreneurs, artisans, and businesses. They are at the heart of everything we do, and MNIBA puts Native business first! As our organization grows so do the opportunities to scale our impact.

IMPACT STATEMENT

MNIBA is honored and privileged to be on the traditional territories of the Dakota and Anishinaabe people. We acknowledge their respected Elders, community leaders, language speakers, entrepreneurs, businesses and the next seven generations.

MNIBA endeavors to build bridges between entrepreneurs and communities through long-term relationships that nurture and support the development of native-owned business and supports building restorative and values-based economies, investment, and practices that create a pathway for community wealth building that promotes well-being above the preservation and accumulation of capital.

MNIBA’S MISSION

- Align Partners
- Connect Businesses to Resources
- Transform Native Economies

MNIBA’S VALUES

- Community: building trust and long-term relationships.
- Creativity: pushing beyond the obvious to promote change.
- Shared Leadership: representative of the communities we serve, fostering cooperation, collaboration and respectful inquiry.
- Restorative Growth: working to build healthy and equitable native economies that work for all.
TRADING AT THE RED RIVER AND INDIGENOUS MARKET PLACE

MNIBA held the first annual Trading at the Red River Indigenous Market Place in 2019. It featured 40 vendors, made up of native business, artisans and nonprofits and 688 visitors attended the event. It is the first of many celebrations of our long history of trade and commerce and recognition of established trade and waterway routes. The Red River and the Red River Valley was historically well-known as a well-organized trade center before and after contact.

The video of the event MNIBA BUY NATIVE: Trading at The Red River Indigenous Marketplace can be viewed on the Minnesota Indigenous Business Alliance YouTube channel.

ENTREPRENEURIAL AND ARTISAN BOOT CAMPS

MNIBA held the second series of entrepreneurial and artisan bootcamps in 2019. What sets this new model apart is that it supports native entrepreneurs with multiple professional native instructors/mentors. This is not a typical talking heads format, instead participants are guided as they meet individually with professionals and are developing work product live!

Attendees left with a full review of their social media channels, branding and marketing assistance, logo and graphic design, business card and brochure layout, professional head and product shots, a capability and/or artist statement, website, search engine optimization, and email development on a high-resolution thumb drive and a Business Toolkit manual.
BUY NATIVE VIDEO SERIES

MNIBA’s team traveled the state interviewing and filming several Indigenpreneurs. The project resulted in a series of 14 one-minute videos. MNIBA’s goal was to showcase the diversity and talent of our region’s businesses and artisans.

The videos can be viewed on the Minnesota Indigenous Business Alliance YouTube channel.

BUY NATIVE STATEWIDE CAMPAIGN & MERCHANDISE

MNIBA launched a statewide social media campaign to Buy Native in 2019. MNIBA has encouraged native business and artisans to sign up and get listed on the online business directory to gain greater visibility, while driving new visitors to the directory. This movement is going viral and other communities are adopting “Buy Native” campaigns. Along with the campaign, MNIBA set up an online store of Buy Native merchandise that includes business planners, bumper stickers, shopping totes, window clings, t-shirts and stickers. The Buy Native merchandise has been designed by native artists and produced by native businesses.

BEGINNING THE COOPERATIVE JOURNEY TOGETHER

MNIBA published the first ever guide to Tribal Community Cooperative Development in 2018. In 2019, MNIBA began interviewing Indigenous-led cooperatives throughout the country and have been documenting their stories, history and aspirations. Many of these stories will be included in the new publication being released February 29, 2020 entitled; “Beginning the Cooperative Journey Together: A Guide to Indigenous Community Cooperative Development.” MNIBA worked with language speakers to develop an Indigenous process to cooperative development engraved in the language and cultural lifeways.

As part of this work MNIBA is working with native artisans to explore starting a Native Arts Organization with a Buying and Marketing Cooperative business model. We are also working with a statewide working group to explore childcare cooperatives in our tribal communities.

The new guide will be available for download on MNIBA’s website on February 29, 2020.

2019 IMPACT AT A GLANCE
MINNESOTA INDIGENOUS BUSINESS ALLIANCE
MNIBA’s goals for 2020 are to expand the visibility, genius and indigenuity of our entrepreneurs in the region and celebrate their accomplishments, as well as those of our community members and youth and organizational partners in all our social media channels and newsletter.

We plan to expand our footprint through Trading at the waterway events and continue to elevate the sophisticated practices of trade and exchange and establish events centered around the historical trade routes and waterway networks before contact.

We will also be hosting Lunch and Learn events throughout the region with native-business pop-ups featuring inspiring native speakers and business owners.

MNIBA will continue to work with language and first speakers to expand our knowledge of cultural lifeways in the context of trade and exchange, and trade protocols as we continue to expand and indigenize our training tools.

We will be hosting a Buy Native conference to launch MNIBA’s new indigenized Buy Native Campaign Primer, followed by an award luncheon celebrating the entrepreneurial diversity and talent in our region.

MNIBA’s new online business directory will launch in the first quarter of 2020 and will continue to offer free listings, with a new added feature of paid subscription levels with new benefits. MNIBA’s new online business directory will continue to feature native cottage/home-based enterprises, artisans, businesses, professionals, nonprofits, social enterprises, and tribal governments.

It is our goal to recruit and establish an intergenerational advisory board made up of native people 18-30 years of age. During their 1-2-year commitment, MNIBA will provide for their training with the goal of creating well-rounded, inquisitive, and a generative group of future board members who understand their roles and responsibility, and confidently know how to read and question financial statements. At the end of their training they are eligible to apply and be considered to serve on MNIBA’s board of directors.

One of MNIBA’s ongoing goals is to support as many native businesses and organizations as possible throughout the year. We believe we must walk our talk about “Buy Native and Putting Native Business First.” This includes who designs the artwork, design layout and printing of our Impact Report. We would like to acknowledge Sarah Agaton Howes, Fond du Lac Band of Lake Superior Chippewa and owner of Heart Berry, for her beautiful dragonfly floral work. We would also like to acknowledge Emily Nordstrom, graphic designer and manager of the Leech Lake Tribal College Print and Design Shop for her artistic eye, layout and print work.
